HOMEPAGE SLIDER

The Homepage Slider module, developed by PrestaShop, allows you to customize and display a responsive slider on your homepage and manage your slides.

This module is ideal for drawing customers' attention and encouraging them to explore content you want to highlight, such as new items, special offers and upcoming events. You can also customize your slides and attach them to your graphic design.

Below you will find everything you need to know to use this module.

Contents:

1. Settings tab
2. Image Manager tab
3. Help tab

1. SETTINGS TAB

In this tab, you can customize the general and visual settings of your Homepage Slider.

Please note that changes made within this tab affect all of your slides.

Start with the general settings for your slider:

- Choose the effect that you wish to apply to your transition. You can choose from three options.

 General settings

Transition effect

☒ Slide

☐ Fade

- Then choose the scrolling speed for your slider: Slow (9000ms), Normal (5000ms) or Fast (2000ms).

- Indicate whether or not you prefer that scrolling pause when the mouse moves over the slider

- Now indicate whether or not you prefer that your slider scroll in a loop. If you choose 'No', your slider will stop at the last slide instead of automatically restarting at the first.

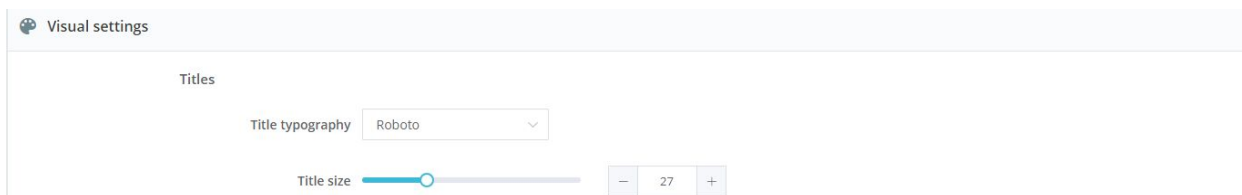

- Finally, you can choose the settings for your slider's navigation elements. You have three options: arrows, dots or both.

Save your settings and proceed to the next step.

Now choose the visual settings for your slider:

- First, decide how you would like the titles of your slides to appear.
 - You can choose the font
 - You can choose the size

- Then decide how the text of your slides will appear.
 - You can choose the font
 - You can choose the size

Paragraphs

Paragraph typography

Noto Sans

Visual settings

29

- You can then choose the color of the items that will appear on your slider.

Navigation

Navigation elements color

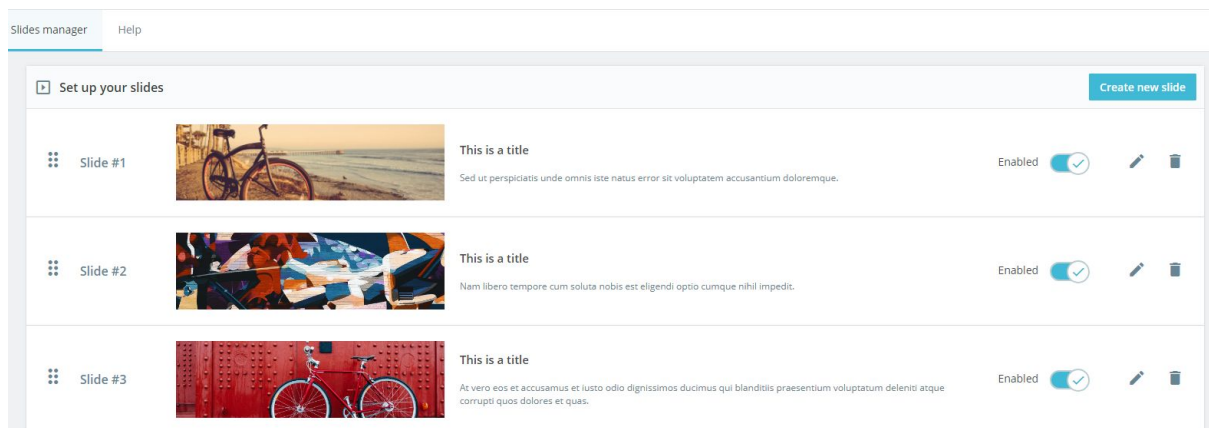

Save your settings and proceed to the next step.

2. IMAGE MANAGER TAB

The settings for your slider have now been configured. This tab allows you to choose the settings for each of your slides. You can upload your images and arrange them as you wish.

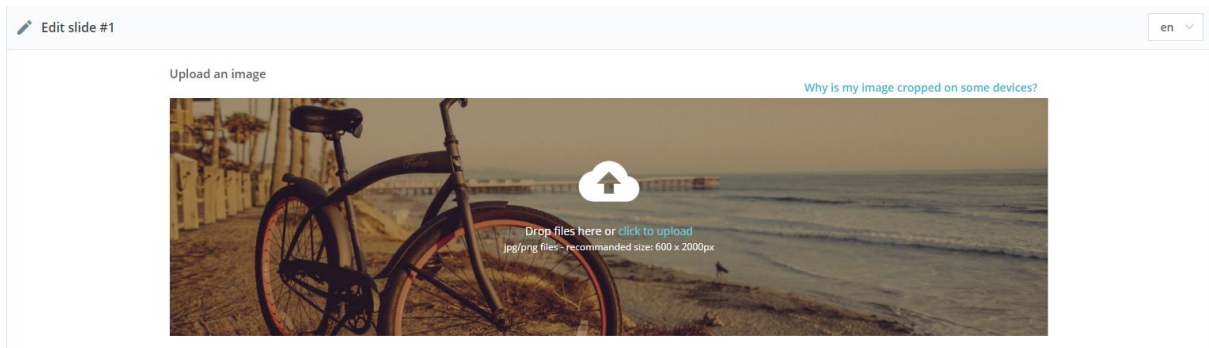

You will also have access to an overview of the slides you have created, and will be able to change their order of appearance via drag and drop (click and hold the icon to the left of your slide, then drag up or down to place the slide in the order of your choice), activate or deactivate a slide, delete a slide (click on the trash icon) or create a new one (click the button at the top right).

To edit one of your slides, click on the pencil icon. You will be redirected to the editable content of this slide, where you will be able to:

Choose the settings for your image and texts by language (note: you can select your language at the top right of this tab):

- Start by adding an image to your slide. We recommend that you upload your image in 600 x 2000 px format

- You can then add a title to your slide

Text settings

Slide title

- You can also add text to your slide

Add your text

- To better align text with an image, you can choose from three options alignment options: left, centered or right

Text position ☐ Left ☐ Centered ☒ Right

- You can also choose to add a background to make your text stand out more

Text background ☒

When you have finished, you can move on to your slide's redirection settings:

- Start by entering the redirection URL for your slide; your customers will be automatically redirected to this URL when they click anywhere on your slider

Link settings

Redirect Url

- Then indicate whether you wish for the URL to open in a new tab when customers are redirected to it.

☒ Open in new tab

Configure your call-to-action (CTA) button:

- You can choose whether or not to display one on your slide in order to draw customers' attention; clicking on the button will redirect customers to the URL provided above

Add a call to action button 

- Enter the text you wish to display (if any) on the CTA button

Button text

Lastly, choose to display your slide on a specific date (sales, specials operation, etc...) or not:

Select starting and ending dates

Once your settings have been saved, you will be redirected to the overview of the slides you have created.

3. HELP TAB

In this tab, you will find the user guide for this module as a downloadable PDF to help you with the various settings, as well as a list of the most frequently asked questions from our vendors and answers from our Modules experts.

The entire PrestaShop Team would like to thank you for your trust and wishes you every success with the Homepage Slider module!

The Homepage Slider module was developed by the PrestaShop team, which ensure total compatibility with the PrestaShop e-commerce software.
